Instructions for mounting the photographs

Our Photographic Society is named after Janez Puhar, the citizen of Kranj and the inventor of glass plate photography.

Janez Puhar (1814 - 1864)
The inventor of photography on glass plate

More than 170 years have passed since the invention of photography on glass plate. Three years after the Frenchman Daguerre succeeded to make photographs on a silver-plated copper plaque, a Slovenian priest from Kranj, Janez Puhar came up with the revolutionary technique of glass plate photography. The usage of new method enabled the reproduction and multiplication of photos. Puhar invented this technique in his "laboratory" on 19th April 1842. The *Académie nationale agricole, manufacturière et commerciale* in Paris recognized this achievement by awarding Janez Puhar an honorary diploma ten years later, on 17th June 1852.
